*Hey! All this talk about other ways to sign in is fine, but you took the checkbox away that used to allow me to stay signed in for 2 weeks. **Why are you trying to make my life harder?!...***

*Why would I sign in with one of these other companies? I don't want them to have my data!*  
***And this just promotes hacking!***

*Isn't it easiest to just sign in with a FamilySearch username and password? That's what I've always done, and I've never had a problem. Why shouldn't I just keep doing that?*

*I guess that I am usually signed into Gmail.  
Maybe it wouldn't hurt to see if it would be  
easier to use Google to get into FamilySearch.  
What do I do?*

*I admit that I actually am on Facebook quite a bit. How would it help me with FamilySearch?*

*Um... Facebook and Google seem to leave me signed in all the time. Why don't you just do that too? **If you guys knew what you were doing, you'd do the same thing!***

*I've got an iPhone. Would using my Apple ID  
with FamilySearch make something easier for  
me?*

*What about this Church Account option? I thought the Church website and FamilySearch used the same username and password anyway. **What's with the different choices?***
