

Syllabus: How to Find Any Photo Quickly

Instructor: Laurie Rubin – Product Evangelist at [Mylio](#), Pro Photographer

What you will learn

This session will guide participants through techniques for efficiently finding, organizing, and managing photos across multiple devices and sources. By the end of this session, participants will:

- Understand how to centralize and organize their photos efficiently
- Use powerful search and filtering tools to find specific images instantly
- Navigate different viewing modes for a more intuitive browsing experience
- Securely back up their entire media library

Topics Covered

1. Introduction to Mylio Photos

- What is Mylio Photos?
- Benefits of a cloud-independent, private photo library
