I am currently in school in the process of completing a BS Degree for Professional Studies. I have finished my Family History Research Certificate and my Advanced Family History Certificate and am now working on my Third and final Certificate of Entrepreneurship to complete my Professional Studies degree.

In the future my goal is to become an accredited professional genealogist through ICAPGen in the Southwestern States of the United States as well of other accreditations later.

While I am in school, I will only be charging \$20 an hour for any services rendered.

Examples of the services I can provide:

One client, I am digitizing her journal and her grandmother's.

I am another client helping her find her mother's side of the family in England.

Another client, I am helping her verify her Family History that her father had done.

And another client am helping her find her father's side in Mexico.
